

# CITY OF PANAMA CITY BEACH

January 6, 2022

## ADDENDUM NO. 2

### PCB23-14 ITB

## GARDENIA STREET DRAINAGE PIPE PROJECT

#### Questions:

1. Will the project require Davis-Bacon wages?

**A. This project is not federally funded. Davis-Bacon wages will not apply.**

2. Will the City consider waiving the FDOT Prequalification requirement for this project?

**A. Companies need to be prequalified for the proper work group to even pursue advertisements as a prime consultant or sub consultant. FDOT screens all those companies regularly to determine their level of qualifications. This process is how the City ensures those companies that bid on the capital improvement projects advertised have the experience necessary to complete contraction as designed for each project type. Therefore, the City will need the FDOT Prequalification requirement for this project.**
