6. **BACKGROUND: (WHY IS THE ACTION NECESSARY, WHAT GOAL WILL BE ACHIEVED)**

For decades, Pier Park has operated as a public-private partnership between Simon Corporation, The St. Joe Company, and the City. Throughout those years, temporary retail, entertainment, informational, and food service kiosks have begun to populate the sidewalks along Pier Park.

Following months of discussions with Simon regarding the placements of these kiosks, Simon submitted proposed regulations related to kiosks in the overlay district. Staff has submitted this proposed language to the Board for consideration and feedback.

Following the Board's feedback, staff will present revised regulations in July.

H. Kiosks. Except as permitted in this section, no Kiosk shall be operated or stored (for more than 24 hours) in an outdoor location along Pier Park Drive south of Hilton Drive (the “Kiosk Control Area” as depicted in Exhibit A.) Kiosks may only be stored and operated within the Kiosk Control Area under the following conditions:

1. Each Kiosk located within the Kiosk Control Area shall be located more than six (6) feet on all sides from any “Obstruction.” For purposes of this section, the term “Obstruction” shall mean above-ground items and improvements that are permanently affixed or not easily moved, such as trees, buildings, light posts and structural columns. The term “Obstruction” shall not include benches, trash receptacles and other items that can be relocated to achieve proper clearances.

2. Each Kiosk located within the Kiosk Control Area shall be located outside the “ROW Area” as depicted in Exhibit A.

3. Each Kiosk located within the Kiosk Control Area shall be located at least twelve (12) feet from another Kiosk. and/or “road” Also, any kiosk must be 12 feet clear from another kiosk, so we achieve the same 6 feet clearance as I detailed above. Finally, we should clearly state that no kiosks are permitted in the public ROW.

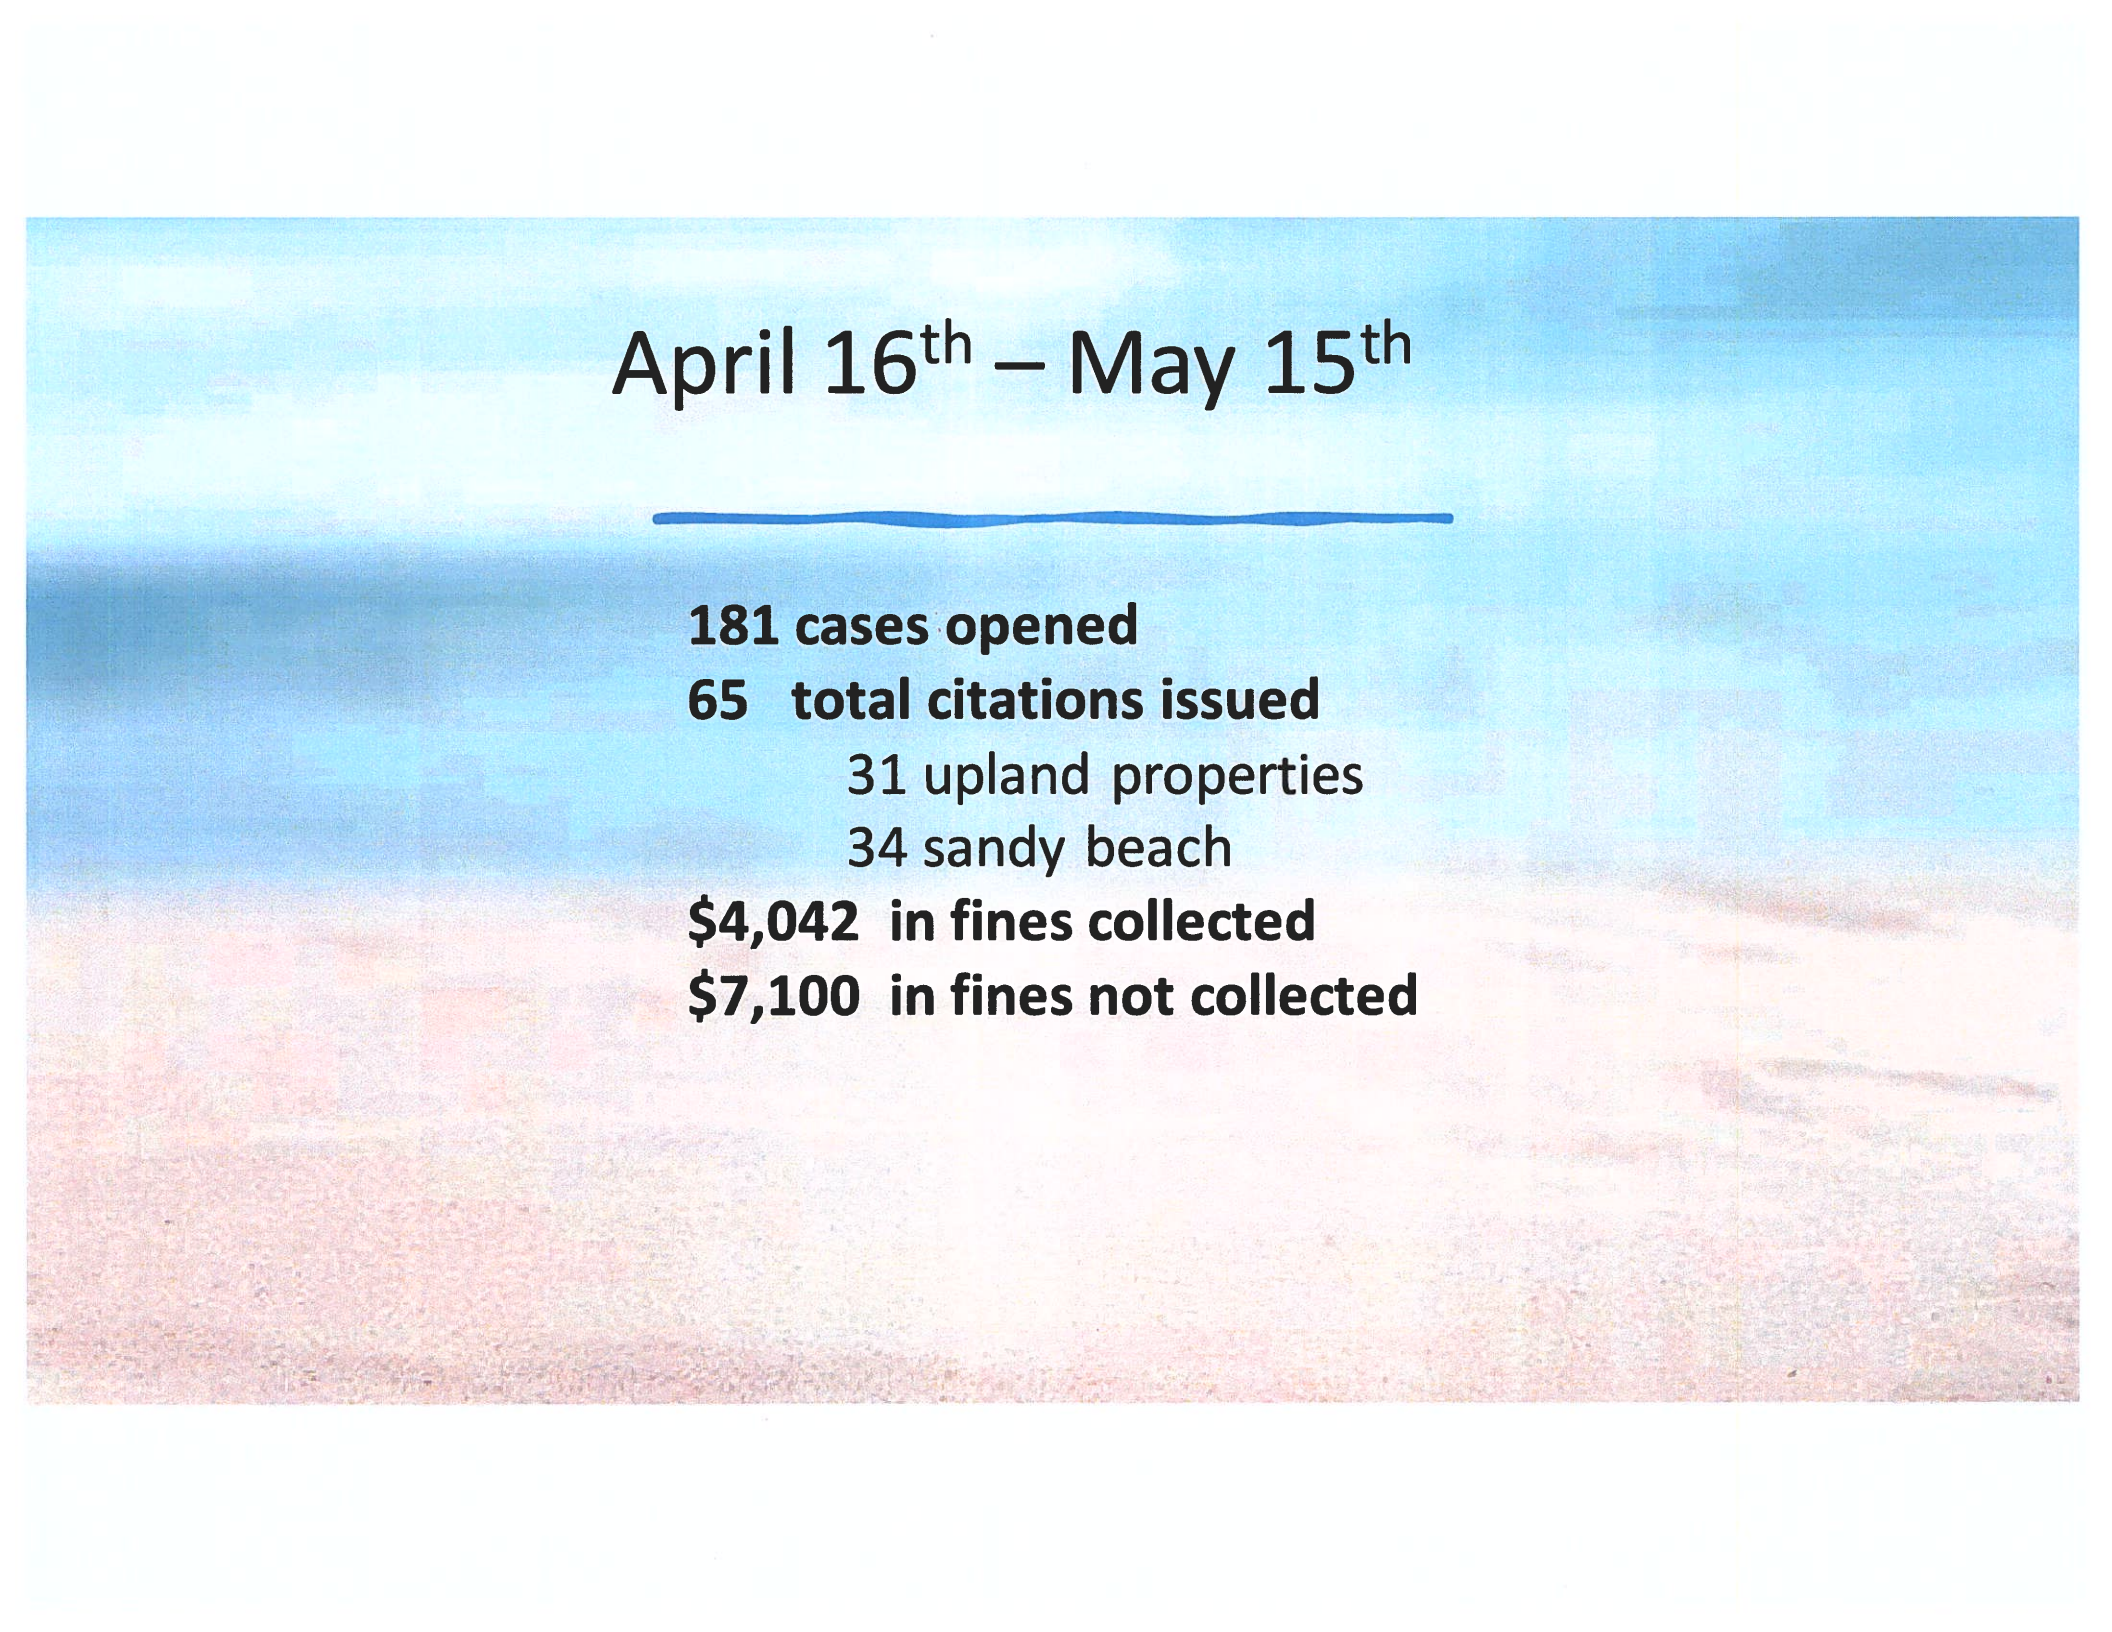

For purposes of this section, the term “Kiosk” shall mean any manned, open-fronted temporary structure in a public area used for the advertisement of, or the point of sale of, various goods and services to in-person customers. Kiosks permitted under this section shall not exceed the following dimensions: a height of 15’ measured from the base or wheels of the Kiosk structure, a width of ___’ measured at the widest portion of the Kiosk structure as operating in public as designed, and a length of ___’ measured from the longest portion of the Kiosk structure as operating in public as designed. All spatial distance measurements made pursuant to Section H(1)-(3) shall be made horizontally from
