6. BACKGROUND: (WHY IS THE ACTION NECESSARY, WHAT GOAL WILL BE ACHIEVED)

City staff was tasked with finding grant availability for sidewalks around schools on Panama City Beach. City staff looked into connecting existing sidewalk and providing proposed sidewalk in the areas around Arnold High School, Surfside Middle School, and Hutchinson Beach Elementary to give local children a safe route to schools when they are within walking distance. Breakfast Point Schools are currently surrounded by sidewalks and provide both an adequate safe path to and from school. Since Hill Road is located within a 2 mile radius and contains Summerwood Subdivision staff suggested this roadway be include to help with a safe route to school for children in that area. The West Florida Regional Planning Council suggested that we look into grant availability under the SRTS application cycle. The next cycle deadline is in December and one of the requirements is a letter of support from the City Council.
